

## 2023 RISK PREVENTION SERIES

The Inspirien Risk team is excited about 2023 as we continue our efforts in offering our customers the tools needed to build a comprehensive Risk Prevention Strategy. This year's series is built around **Six Risk Focus Areas** that impact all healthcare facilities, regardless of size or location. The goal is to focus on one of the six key focus areas for two months. Information will be offered in multiple mediums, including education webinars, emails with links to best practice and resource information, and in-person or phone consultations. These engagement opportunities are designed to educate on the risk impacts and offer practical tools for helping our customers create actionable plans to improve their exposure.

### This bi-monthly Risk Focus Area is **MEDICATION SAFETY**

Six of the Top 10 Patient Safety Concerns listed by ECRI in their 2023 report are directly related to safe medication practices, while the others listed in the Top 10 concerns have implications related to medication safety.

We will discuss general standards and practices and drill down into specific processes around Sharps Injury Prevention, Restraints and Seclusions, and the Impaired Employee. These webinars represent vital practices that must be consistent among clinicians to maintain and promote patient safety.

Join us in July and August as we dive deeply into regulatory standards and evidenced-based best practices surrounding this vulnerable patient safety process.

Please forward these registration links to others in your organization, and they may register individually for our webinars. We have also set up our webinar process where you, as a facility representative, can register for the webinar and show the webinar to multiple participants in a classroom-type setting. If you choose this setting, we will send out webinar information before each webinar to provide instructions on documenting attendance so each participant will receive credit for the course. You can register multiple times to give your staff several opportunities to participate.

Continuing Education Credit will be offered for nurses [ABNPI264 – exp. 06/01/2027].

Inspirien Holding Corporation is an approved provider of continuing education by the Alabama Board of Nursing.

CE credit is available **only** for those who attend the webinars as “live events”, verify attendance and provide ABN license information.

These webinars are included with your policy.

If you have any questions about this process, feel free to email Debbie Franklin at [dfranklin@inspirien.net](mailto:dfranklin@inspirien.net) or contact your Risk Consultant.
